before it. if you haven't read any of his books that are in the shannara series this book than will be a good book. i would give this book an 8/10 because it was very similar to the books before it in the series. also because it didn't have a lot of talking in it. the last reason is because the author told you about brin's feelings allot. **the wishsong of shannara the shannara chronicles** -
